IAS - 49/72
11 April 1972

MEMORANDUM FOR: Director, Foreign Missile and Space Analysis Center

SUBJECT : Temporary Assignments of IA Careerist to CIA
Production Offices

1. IAS and its operations have recently been reviewed by a team from the Inspector General's Office. One of the recommendations of this team was that "the Director, Imagery Analysis Service, in conjunction with the Directors of Scientific Intelligence, Foreign Missile and Space Analysis Center, and Strategic Research, develop a limited program of one-year details from IAS to one or more of offices named, to further the knowledge, capabilities, and career opportunities of the imagery analysts."

2. IAS believes this recommendation is a good one which, if implemented, could benefit both the offices and individuals involved. I would appreciate it if you could assist us in this matter by surveying your substantive divisions to determine the feasibility of this proposal and to identify the area and general nature of a analytical position you might be able to provide. If the proposal is acceptable the IA Career Service will provide the slotting.

25X1A

3. Please advise me of your findings and any additional thoughts you may have on this proposal.

Imagery Analysis Service
